AXCESS International to Present at Thomas Weisel Partners RFID Conference

DALLAS – May 22, 2006 – AXCESS International Inc. (OTCBB: AXSI), a leading provider of Radio Frequency Identification (RFID) and Real Time Location Systems (RTLS), has been invited to present at the Thomas Weisel Partners GPS & RFID - Location, Navigation and Tracking Conference, scheduled for May 24-25, 2006, in San Francisco, CA.

Presenting on behalf of AXCESS will be Allan Griebenow, President and Chief Executive Officer. The AXCESS presentation may be viewed live on the Internet via an audio webcast at 3:00 PM Pacific time on Thursday, May 25, 2006. To view the live presentation, the webcast link of http://www.veracast.com/webcasts/twp/gps_rfid06/88214145.cfm should be used approximately 10 minutes prior to the presentation's start time. A replay of the presentation will be available and archived for 30 days after the conference ends. The live presentation and replay will be available through AXCESS's corporate web site and are free of charge.

The markets for Location, Navigation, and Tracking technologies and solutions are developing rapidly and the explosive growth of the past few years serves as validation for their potential. The utility of these emerging technologies spans a number of opportunity segments ranging from consumer products and services to asset tracking, security, and supply-chain management. Given the tremendous growth potential, Thomas Weisel Partners are championing investment opportunities within the GPS & RFID technology sector.

The GPS & RFID – Track, Trace and Navigate Conference is designed to assemble an impressive group of both companies and institutional investors and create a forum for an exchange of views between investors, industry analysts and company managements. For maximum impact, private meetings will be arranged between company management and investors.

About Thomas Weisel Partners

About AXCESS International Inc.

AXCESS International Inc. (OTCBB:AXSI), headquartered in greater Dallas, TX, provides Radio Frequency Identification (RFID) and Real Time Location Systems (RTLS) for asset management, physical security and supply chain efficiencies. The battery-powered "active" and "semi-active" (on-demand) RFID tags locate, identify, track, monitor, count, and protect people, assets, inventory, and vehicles. AXCESS' RFID solutions are supported by its integrated network-based, streaming digital video (or IPTV) technology. Both patented technologies enable applications including: automatic "hands-free" personnel access control, automatic vehicle access control, automatic asset management, real time location

determination, and sensor management. AXCESS is a portfolio company of Amphion Innovations plc. Additional information about AXCESS is available on its Web site at www.axcessinc.com.
